# I. How Much

## INSTRUCTIONS FOR METLIFE'S LIFE INSURANCE INCOME SIMPLIFIER:

Determine your monthly income, the amount you wish to protect and how many years you wish to protect it. For protected monthly income levels and a duration of years protected other than what's shown, ask your MetLife representative for a customized report.

**STEP 1** – What is your monthly income?

\$

**STEP 2** – How much of this income do you want to provide for your family in the event something happens to you?

**STEP 3** – How long would your family need this income in the event something happens to you?

**STEP 4** – Use the **MetLife Insurance Income Simplifier** chart to the right to determine how much life insurance you would want to provide to your family in the event something happens to you.

**STEP 5** – Determine the amount of additional life insurance you may need today.

	<b>LIFE INSURANCE NEEDED</b> <small>minus</small>		
	<b>CURRENT LIFE INSURANCE COVERAGE</b> <small>–</small>	–	
	<b>ADDITIONAL LIFE INSURANCE NEEDED TODAY</b> <small>=</small>	=

 If an alternate method to calculate the amount of life insurance needed is used, please skip the five-step process and enter the amount of life insurance in this box.

## METLIFE'S LIFE INSURANCE INCOME SIMPLIFIER

The amount of life insurance needed is based on how much of your monthly income you wish to provide to your family and for how long you want to provide it, if you aren't there to earn it.

Values in this table represent the present value of a future income stream and are based on a hypothetical rate of return of 4%. If the rate of return were higher or lower a different value would result.

This MetLife Insurance Income Simplifier represents the amount of life insurance needed to replace your income or a percentage of income for a period of time. While the chart makes several assumptions, a custom report can be created for your specific situation.

# II. Insurance Portfolio Allocation

## BEGIN THE INSURANCE PORTFOLIO ALLOCATION

Some people feel they need life insurance for a certain period of time—just long enough to meet their responsibilities for those who depend on them. This is typically done with *term insurance*.

Others, however, recognize that owning some form of life insurance for their entire lives can provide them with added protection and flexibility as they prepare for life’s possibilities. This is typically done with *permanent insurance*.

Many people find their objectives are best met with a combination of term and permanent insurance.

CIRCLE YOUR PREFERENCE		
1. The idea of leaving an inheritance is important to me—either for my family or a charitable organization. I would want to do this in an efficient manner.	Agree	Disagree
2. In the future my adult children and/or parents may rely on me for financial support. I want to make sure my life insurance policy is there if they need it.	Agree	Disagree
3. I would prefer the least expensive type of life insurance, even though my benefits will expire at some point in the future.	Agree	Disagree
4. I only want life insurance for a limited period of time (i.e., until my mortgage is paid, children finish college, or other financial obligations are met).	Agree	Disagree
5. If I die prior to my spouse during retirement, I want to ensure he or she receives a life insurance death benefit.	Agree	Disagree
6. If I were to die during my working years, I would want my family to receive a life insurance benefit that would replace the full value of my income.	Agree	Disagree
7. Regardless of how long I may live, it’s important for me to have my life insurance in place when I die.	Agree	Disagree
8. I don’t want to commit to permanent insurance today, however I’d like to have the right to convert term coverage into permanent coverage in the future should my situation change without having to undergo additional medical screening.	Agree	Disagree

**AVAILABLE TERM PRODUCTS:** MetLife and its affiliates offer term policies with guaranteed level premiums<sup>1</sup> for a specific period of time. After the level premium period, the premiums increase significantly each year. During the level period you can convert your term policy to a permanent policy with no additional medical questions.

Term Policy Type	Description
<b>10 and 15 Year Term</b>	The more affordable choices, generally most appropriate for short-term needs or when the owner expects to convert to a permanent policy in the future.
<b>20 Year Term</b>	The most popular choice. Provides coverage for longer term needs and the flexibility to convert over a longer period of time than 10 or 15 year term.
<b>30 Year Term<sup>2</sup></b>	Costs more than 10, 15 or 20 year term insurance and provides the longest term coverage duration.

### III. Permanent Insurance Allocation

#### BEGIN THE PERMANENT INSURANCE ALLOCATION

Many people find that owning some term insurance is an effective way to protect their families and others who depend on them, particularly for the short-term.

Many of these same people, however, also want the added protection and flexibility of permanent insurance but are unsure as to which type is right for their situation.

The most appropriate type of permanent insurance for you is based on your preferences and attitudes toward a range of factors such as risk preference, flexibility, guarantees and your retirement and legacy objectives.

CIRCLE YOUR PREFERENCE					
1. I prefer the guarantee of knowing exactly what my insurance policy premium and death benefit will be, even though I may not be able to change it in the future.	Strongly Agree	Agree	Unsure	Disagree	Strongly Disagree
2. I would like to have the flexibility to increase or decrease my premium payment, even though doing so may have an impact on my policy's performance and guarantees (if applicable).	Strongly Agree	Agree	Unsure	Disagree	Strongly Disagree
3. I would like my life insurance policy cash value to grow and eventually be worth more than the cumulative premiums that I've paid, even though it may require a higher initial premium outlay.	Strongly Agree	Agree	Unsure	Disagree	Strongly Disagree
4. It's important for me to find additional ways to set money aside on a tax-free or tax-deferred basis to meet my long term retirement goals.	Strongly Agree	Agree	Unsure	Disagree	Strongly Disagree
5. I prefer the type of policy that has cash value. I would like to know that my policy cash value is guaranteed regardless of future performance of interest rates and stock markets.	Strongly Agree	Agree	Unsure	Disagree	Strongly Disagree
6. I prefer the type of policy that has cash value. I am willing to accept some risk for more potential policy cash value growth; I understand, however, that a declining market may require additional premium in the future to keep my policy in place and that any investment into a variable insurance policy is subject to market risk including loss of principal.	Strongly Agree	Agree	Unsure	Disagree	Strongly Disagree

	<b>PERMANENT INSURANCE ALLOCATION SCORE</b>						

<b>BELOW 59 POINTS:</b>	Your answers show that you favor guaranteed death benefit protection over the potential for cash value growth. You should discuss with your financial representative how universal life insurance with secondary guarantees should be considered based on your situation.
<b>59 – 62 POINTS:</b>	Your answers show that you generally prefer guaranteed death benefit protection, yet you may want to consider a policy that has some element of cash value growth. Working with your financial representative, you should consider universal life or whole life insurance to determine what policy best fits your situation.
<b>63 – 67 POINTS:</b>	Your answers show that you prefer a policy that has both guaranteed death benefit protection as well as a guaranteed form of cash value growth. You should discuss with your financial representative how whole life insurance should be considered based on your situation.
<b>68 – 72 POINTS:</b>	You said you would prefer a policy with the potential for cash value growth, yet you also may be unsure about taking risk with your policy values. Working with your financial representative, you should consider whole life insurance. In addition, you can also discuss the potential risks, benefits and investment options available with variable universal life to determine what policy best fits your situation.
<b>OVER 72 POINTS:</b>	You clearly prefer a policy that has cash value with the potential for growth associated with the stock market. Working with your financial representative, you should discuss the potential risks, benefits and investment options available with variable universal life insurance.

## AVAILABLE METLIFE LIFE POLICIES BASED ON YOUR ANSWERS ABOVE

Permanent Policy Type	Description
<b>Universal Life<sup>3</sup></b>	Universal life generally provides a guaranteed premium and can be designed to provide a guaranteed death benefit and typically does not focus on cash value accumulation.
<b>Whole Life</b>	Whole life insurance has guaranteed level premiums, guaranteed cash value and guaranteed death benefits. Whole life is also eligible to receive annual dividends. Dividends are not guaranteed; however, if paid they may increase the cash value and death benefits over time.
<b>Variable Universal Life<sup>4</sup></b>	Variable universal life features an equity component which permits the allocation of premiums among professionally managed funding options. The performance of these funding options may affect the cash value and death benefit amounts. Investments in variable universal life are subject to market risk including loss of principal.

<sup>3</sup> The policy's 5 year no-lapse guarantee remains in force provided required premiums are paid and values are not taken out of the policy. If the guarantee terminates, the policy will stay in force for as long as its cash value is sufficient to pay for the policy's benefits. Paying additional premiums will increase the policy's cash value. The optional Coverage Continuation Rider (CCR) guarantees that the policy will remain in force even if the policy's cash surrender value is insufficient to pay monthly policy deductions, subject to certain conditions and limitations. If neither the 5-Year No-Lapse Monthly guarantee nor the CCR are in effect, then the policy will not lapse as long as net cash surrender value is sufficient to pay the monthly deductions when due.

<sup>4</sup> Equity Advantage VUL offers death benefit guarantees through Guaranteed Minimum Death Benefit (GMDB) options. These options guarantee the policy will not lapse, regardless of investment performance, for a period of 5 years, 20 years or to age 65. For an additional fee, the death benefit can be guaranteed to age 85 or for life.
